X-STREAM® WASH SYSTEM

X-STREAM® IS THE BEST PERFORMING, EASIEST TO USE POWER WASH SINK SYSTEM WITH THE LOWEST TOTAL COST OF OWNERSHIP

Foodservice operations are switching to a power wash sink to tackle the undesirable task of pot and pan washing. This in turn is leading to increased operational efficiency and an improvement in the bottom line. The X-Stream® Wash system quickly and efficiently turns around clean, sanitized items and allows you to focus on the business of serving your customers.

X-STREAM® WASH SYSTEM INTELLIGENT CONTROL CENTER

The X-Stream® Wash System increases the ease and effectiveness of your warewashing process by delivering the right amount of heat, chemical and impingement for each job.

- Variable, programmable wash schemes tailored to your operations
- Batch cycle washing notifies you when your wares have been thoroughly cleaned
- Idle mode between batches reduces energy costs and eliminates grease slicks resulting in possible recontamination during ware removal
- Health reporting allows you to track and monitor usage data to ensure proper sanitation
- Other valuable features include temperature control, low water detection, integrated soap dispensing and self diagnostics

KEY FEATURES

PLUG N' PLAY SERVICEABILITY:

- Main components can be replaced in 15 minutes or less (control, heater and pumps)
- Replacement parts require only a nut driver and/or wrench - no service call needed

RIBBED VACUUM BREAKER:

- Efficient flow design
- Prevents pots and pans from sticking to the intake

TRAPEZOID WASH TANK:

- Excellent impingement without hazardous splashing
- Angled header wall allows total tank drainage to eliminate contamination
- Shallow depth increases ergonomics and reduces utility costs
- No need for wash tank inserts

DUAL PUMP DESIGN:

- Superior cleaning performance through multi-sided discharge
- Increased energy savings due to kinetic heat transfer

DISCHARGE PLATES:

- Removable and easy to clean
- Ability to tailor wash tank performance to your needs

OPTIONS AND ACCESSORIES

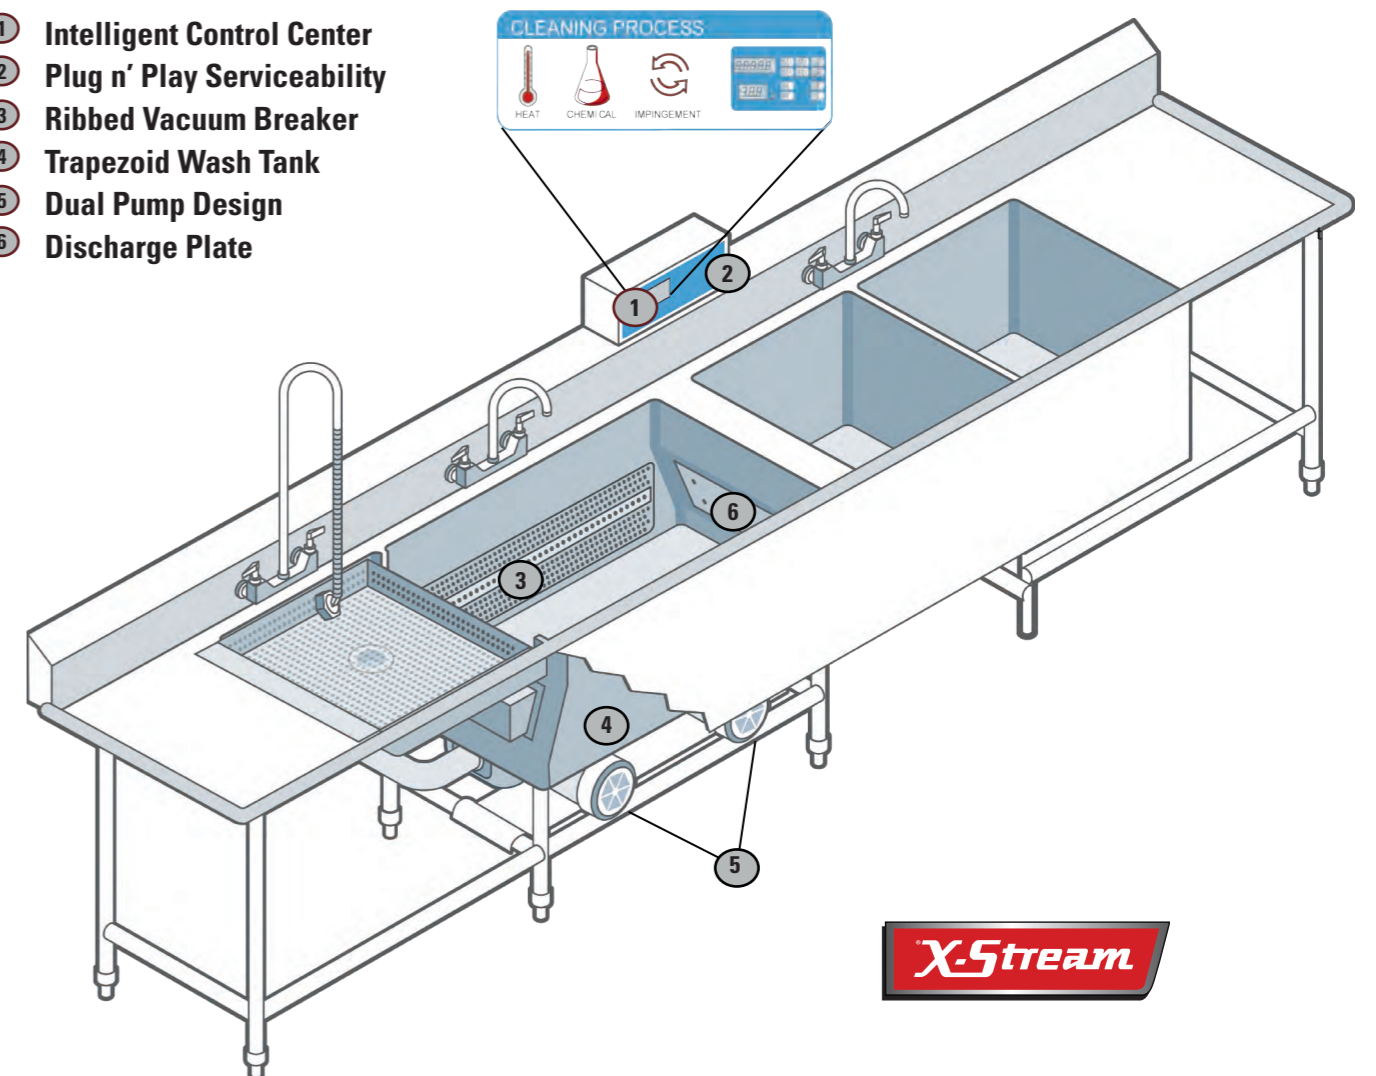

- Adjustable sheet pan system
- Integrated soap pump
- Utensil basket
- Pocketed backsplash
- Removable folding lid system
- Dish machine (X-Clean®)

RETURN ON INVESTMENT

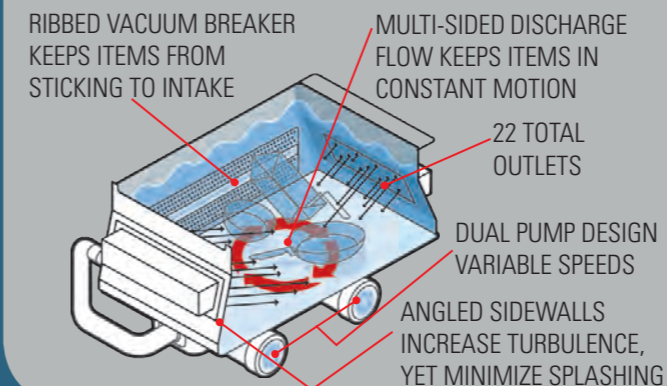

In addition to a safe, sanitary kitchen environment, the following benefits are attributable to the X-Stream® Wash System:

- **Labor savings** through automation, multi-tasking and elimination of redundant processes
- **Cost reduction** through energy savings, water usage reduction, efficient chemical usage and extended life of foodservice consumables
- **Improved morale** as one of the least favored jobs becomes a seamless task
- **Lower risk** to your operations due to less splashing and optional reporting capabilities

- 1 Intelligent Control Center
- 2 Plug n' Play Serviceability
- 3 Ribbed Vacuum Breaker
- 4 Trapezoid Wash Tank
- 5 Dual Pump Design
- 6 Discharge Plate
