

HotFrost™

DISPLAY MERCHANDISERS

MAKE IT **HOT** MAKE IT **COLD** MAKE IT **HOT & COLD**

It's a CounterCraft™ exclusive - and the options are endless! HotFrost™ Display Merchandisers offer as many as three serving levels - all designed for standard sheet pans. Sizes include widths for one to three full sheet pans per tier, three half pans per tier or special order lengths. With HotFrost™, food display options include hot, cold, ambient, heated pizza stone or our unique dual mode - hot/cold. CounterCraft™ takes your food service needs to the next level. It's a counter revolution!

Custom configurations and applications available. Contact CounterCraft for details.

The CounterCraft™ HotFrost™ can be ordered in any configuration required with lengths to accommodate up to three full size 18" x 26" sheet pans per tier. Optional high polished edges. Fully insulated shelves. Individual controls for heating serving levels. Independent refrigeration systems for frost tiers.

Lighting and frost options require 120v/60Hz/1PH electrical service. Heat and dual temperature options require 120-208v/60Hz/1PH electrical service. Both will be supplied with a cord and plug. All stainless steel construction. All levels have individually controlled lighting.
