School Meal Delivery Carts

Are commonly broken down into two models:

1. Breakfasts are delivered directly to the classroom where students eat during the first few minutes of the school day.
Teachers have noted increases in instructional time with students no longer distracted by headaches and stomachaches.
2. Students grab a bagged breakfast from carts located around the school building and take the breakfast to their classroom to eat when time presents itself - Commonly called "Grab-and-Go".

52550 | Breakfast Cart

Features:

- Solid aluminum shelf.
- (2) Tray rails,
- (2) Food box bays,
- Storage for coolers, crates & other supplies.

Moving breakfast out of the cafeteria and making it a part of the school day has become crucial for increasing school breakfast participation.

(poly boxes not included)

Badge Holder Rail

extends in three positions, in 18.5" increments, for a total of 56" inches.

Shown here: 52550 Base Unit with optional three side enclosed base, sign holder, badge holder rail, and bag holder. (badge holders and poly boxes not included)
