

CounterCraft CONNECTED COUNTERS

Integrated serving counters and touchscreens

Our serving counters are now shipping out with **easy-to-use touchscreen controls** to maximize the efficiency in your kitchen. While these controls are ready-to-go and will greatly improve your serving lines as they are today, they are also future-proof. We have our sights set on further advancing your experience by enabling you to connect to all of your appliances via the **Sous Chef Mobile App**. Sous Chef will allow you to receive notifications and control equipment from afar!

Touchscreen Controls

Knobs have limited use, need to be manually adjusted individually, and can be bumped on accident. Knobs can also break or go missing.

AFTER

Our touchscreen controls **are easy to learn and use** and enable you to keep temperature presets as well as offer the option to lock the control to prevent changes

- Secure, password protected control access.
- On-screen alerts & diagnostics
- Serial number easily accessible on screen
- Modern aesthetic that is easy to keep clean
- Solid state temperature control & digital feedback loop improve temperature consistency

Connected Counters *powered by Sous Chef*

The Sous Chef Mobile App is the next step in kitchen connectivity and the evolution of kitchen management as we know it. Our touchscreen controls in conjunction with Sous Chef Technology will open a world of possibilities!

**The next
generation
of your
kitchen is coming!**

The Sous Chef Mobile App will...

- Allow you to set times & temperatures remotely
- Self-report equipment issues to maintenance
- Allow you to request service
- Link to part diagrams, videos, & manuals for use and service
- Display warranty coverage status
- Enable firmware updating via Bluetooth® wireless technology
