

# Traulsen

## Specification Series Refrigerators & Freezers

*High-performance refrigeration in a durable cabinet designed for your specific needs*

With our patented, plug & play INTELA-TRAUL® control, each of Traulsen's Specification Series refrigerators and freezers are able to provide superior temperature maintenance, reliability, and energy efficiency. The INTELA-TRAUL® control maintains precise temperatures while supporting a HACCP program with critical event alarms such as "high cabinet temperature" and "power loss". Our Energy Star®-rated units\* keep food safe with a uniquely designed airflow that ensures consistent food temperatures and operator peace of mind, even with the door open. Designed with heavy duty stainless steel and 100% metal construction, Traulsen's cabinets are built to work hard and last long - exactly what you should expect from the leader in commercial refrigeration.

### Available Models:

1, 2 & 3 Section Reach-Ins, Pass-Thrus, Roll-Ins & Roll-Thrus

Patented, Plug & Play INTELA-TRAUL® Control

EZ-Change Interiors (Accessory)

EZ-Clean Gasket

3-Year Parts & Labor Warranty/5-Year Warranty on Compressor

### Support Food Safety

- Patented, plug & play INTELA-TRAUL® microprocessor control provides accuracy and reliability.
- LED displays critical event alarms such as "door open", "high cabinet temperature", and "power loss".
- Temp Assure Air Flow system ensures consistent temperature throughout the cabinet, eliminating warm spots and reducing introduction of warm kitchen air, even with the door open.

### Lower Operating Costs

- All-metal construction, including stainless steel breaker strips, extends equipment life, and minimizes service calls.
- Raised door pans protect gaskets, extending their life and reducing replacement costs.
- Energy Star®-certified\* for efficient operation and lower energy costs.

### Save Labor

- Easy-to-clean, front-facing condenser coil makes regular maintenance quick and simple.
- EZ-Clean gaskets are made with sanitizer-friendly Santoprene®.
- Optional EZ-Change interiors can be removed for regular cleaning and replaced with ease.

\*Many models meet Energy Star® requirements. Visit [energystar.gov](http://energystar.gov) to view current product listing and performance data.

## What's In It For You?
