

Dinex Disposable Meal Delivery Tray

Operate your meal delivery service by utilizing the new Dinex disposable tray and our high heat plate and dome. For late tray service or for serving meals to a behavioral unit or isolation ward, the Dinex disposable option provides an attractive and safe meal presentation to the patient. The fully-disposable design assists in easy clean-up and encourages earth-friendly recycling while eliminating the need for tray retrieval from satellite locations.

Our new bagasse disposable tray is constructed of sugar cane and is certified compostable and biodegradable.

DXTR1418D42

- Sturdy enough to hold up to 5 pounds of food
- Large enough to serve a full traytop set-up
- Can be used with Dinex tray delivery carts
- Meets emergency meal requirements with an attractive plate presentation that is fully disposable and microwavable
- Where to use the Dinex Disposable Tray, Plate & Dome:
 - Isolation Units
 - Behavioral Units
 - Doctor's Lounges
 - Late Trays
 - Emergency back-up

Dinex now has two options for high heat plates!

The 9" regular plate or 9" (3) compartment plate both fit induction bases and can also be used in retherm unit or hot/cold carts.

If you want to utilize more disposables, consider adding other items such as a beverage cup, souffle cup or side dish. Only your induction base will need to be cleaned—all other items can be disposed or recycled!
