Attachment Methods

METHOD I: SNAP CLIP
Snap clips fasten into steel snaps that are permanently attached to the skirt header. Clips remain attached to the skirt when taken off the table but are easily removed for laundering.

METHOD II: SNUGTIGHT™ CLIP
Snugtight clips have a hook-side tab on the face and attach directly to the table over the table topper or tablecloth. The skirting header is lined with a color-coordinated loop-side strip so it attaches easily to the clips.

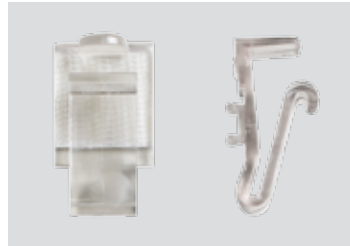

METHOD III: HOOK & LOOP ONLY
Loop-side strip is sewn onto the skirting header for easy attachment to hook-side tape which is attached to table or stage edges. Hook and Loop Only option does not include clips.

METHOD IV: PLAIN BACKING
Skirting is sewn with plain, reinforced backing for easy pinning to table toppers or tablecloths.

Snap Drape Brands 100% spun linens have the look and feel of cotton without sacrificing the durability, colorfastness and shrink resistance of filament polyester. If you are looking for a maximum return on your linen investment, think spun polyester from Snap Drape Brands.

Snap Drape's line of 100% spun polyester linens are made up of the plain weave, Nouveau UltraSpun™ and the exclusive damask pattern, Nouveau Windsor™. They are woven with Murata Air Jet Spun Polyester in the warp and the fill. Softer, stronger, brighter, whiter are just a few advantages of our Nouveau line of table linens.

MarketPlace is the more economical name in table linens. These linens are woven with 6.0 oz. spun polyester for absorbency/performance and in stock for immediate delivery. Tablecloths are available in seven sizes in black and white - in both hemmed and overlapped. Rounds are available in overlapped only. 20" x 20" napkins are available in White, Black, Forest Green, Burgundy, Gold, Sandalwood and Ivory, in both hemmed and overlapped. 17" x 17" White napkins are available in overlapped only.

Table Linens

Snap Drape also offers Milliken's line of genuine table linen fabrics including Signature and several

Damask HD™ fabrics including Wave™.

All are constructed from a spun polyester/filament blend with Milliken's Soft Touch Technology™. This gives the fabric strength and better colorfastness with a soft, natural feel that lasts wash after wash.

For linens with excellent soil and stain release properties, Visa® Plus is the perfect choice. Visa Plus has the outstanding durability, performance and return on investment that made Visa® Oxford the fastest-selling table linen on the market.

Now, thanks to a recently patented soil release breakthrough, you can wash at a low 120° rather than 160° - dramatically lowering your energy costs.
