NEW FLAV-R-SAVOR® HUMIDIFIED HOLDING AND DISPLAY CABINETS

The next evolution in hot food holding.

The FSDT2 Flav-R-Savor® Humidified Holding and Display Cabinet is the newest generation of Hatco's trusted food holding and merchandising solution. Building on the dependable performance operators rely on, this cabinet enhances food presentation while maintaining consistent heat and humidity to keep menu items hot, fresh, and ready to serve.

MAXIMUM PRODUCT VISIBILITY

A modern, unobstructed design with high-impact LED lighting showcases food for an attractive, attention-grabbing display.

INTUITIVE OPERATION

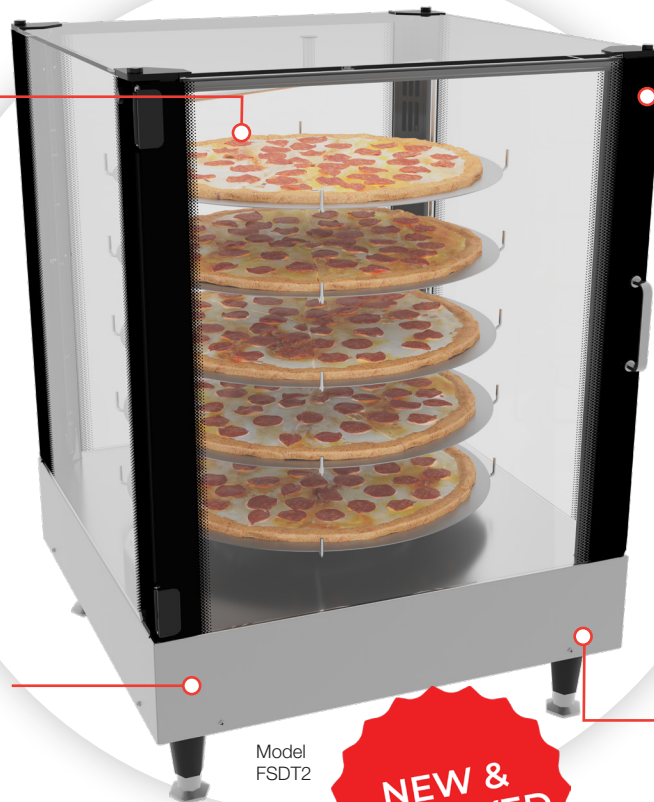

Simple controls with temperature and humidity settings, a large electronic display, and a low-water alert make monitoring and operation easy for staff.

ENERGY-EFFICIENT HUMIDITY GENERATION

A targeted water-heating design warms only what's needed for humidification, reducing energy use while maintaining consistent performance.

OPERATOR-FRIENDLY WATER SYSTEM

A larger water tank with a more accessible fill and drain design simplifies daily operation and reduces handling.
